

# The KODAK PROFESSIONAL

## ML-500 DIGITAL PHOTO PRINT SYSTEM

---

- **Fast turnaround:** Photo-quality, 8x10 dry thermal prints in 13 seconds, with the burst rate you need, when you need it.
- **High throughput:** Blazing print speeds (up to 270 8x10s per hour) let you get more jobs done every hour.
- **Customer satisfaction:** Immediacy and high-quality results will have your customers coming back for more.
- **Versatility:** Goes where you need it—on location or as an adjunct to your current workflow in your studio or lab.
- **Value:** Speed, simplicity, and high-quality results at a remarkably affordable price.
- **Convenience:** The convenience of 8-inch media—creates borderless 8x10 prints, eliminating the need for trimming.

### Your go-anywhere, high-speed production facility in a box.

The portable KODAK PROFESSIONAL ML-500 Digital Photo Print System delivers high-speed, high-quality production printing wherever you need it. In your studio or lab, on location, or for distributed, on-demand output—the ML-500 Printer's portability and blazing speed will open up one window of opportunity after another. It's like your very own production facility in a box.

Imagine getting a photo-quality 8x10 dry thermal print in just 13 seconds. Immediate, high-quality results can mean more sales, more customer satisfaction, and more repeat business. The ML-500 Printer is four to six times faster than other dye-sublimation or inkjet printers—and as productive as many digital minilabs. With output like this, you'll get more high-quality jobs done every hour.

The ML-500 Printer combines high-performance, go-anywhere versatility, and simple operation with a breakthrough price. And, as it helps you reduce the complexity of your workflow, it can also cut your operating costs. The ML-500 Printer media costs are significantly lower than other thermal and inkjet devices. It offers the lowest total cost of ownership, compared with competitive low-end lab solutions.

In all, with excellent colour reproduction and the ability to produce both matte and gloss finishes, the ML-500 System quite simply represents the best available option for speed, versatility, and image quality.

Creates  
borderless 8x10  
prints without  
trimming

## The KODAK PROFESSIONAL ML-500 Digital Photo Print System

- Get photo-quality prints in just 13 seconds; 270 8 x 10s per hour.
- Plugs into your workflow, whatever your application—in the studio, lab or on location.
- Its compact design and completely dry thermal system make it easy to transport.
- Delivers professional, photo-quality prints at significantly lower costs compared to other thermal and inkjet devices.
- Modest capital investment; low media cost per print.
- Prints all standard print sizes up to 8x10-inch. Capable of printing 8.5-inch-wide borderless prints up to 37 ft. long.
- Can be operated non-stop and unattended for over two hours.

### Printer specifications\*

- Printing process: Multi-head thermal dye-sublimation
- Print quality: Continuous tone, 300 dpi, 16.7 million colours
- Print time: 13 seconds per 8 x 10-inch image
- Computer interface: IEEE 1394 (FIREWIRE)
- Printer drivers for WINDOWS 98, ME, WINDOWS NT 4.0, 2000, and WINDOWS XP Systems. MAC OS X Drivers also available

### Media

- Surface (laminate) options: Gloss, Matte
- Paper width: 8 (203 mm) and 8.5 inch (216 mm)
- Paper roll weight: 13 lbs. (5.9 kg)
- Paper and ribbon length: 500 ft. (152.4 m)
- In-line lamination: KODAK PROFESSIONAL EKTATHERM XTRALIFE Laminate for water/fingerprint resistance and greater durability

### Printer server: Minimum system requirements

- WINDOWS 2000 or WINDOWS XP with a 1 GHz processor
- 512 MB RAM
- 10 GB available storage on hard drive
- Available slot for PCI format IEEE 1394 (FIREWIRE) interface card and cable (included)

### Physical characteristics

- Physical dimensions (W x H x D): 17" x 22" x 26" (432 mm x 559 mm x 660 mm)
- Weight: 120 lbs. (54.5 kg)
- Plugs into standard wall outlets (110-240 VAC)
- No other connections, plumbing or HVAC investments required
