

The 'Reel EFX' Wind Machine

From Britain's leading independent professional photo equipment distributor comes the ultimate studio wind machine ... a 'must' for portrait and fashion photographers everywhere.

It's totally affordable and gives you precision control over airflow through its unique adjustable vanes.

You actually control the 'width' of the airflow from a narrow, high velocity spot through to a wide diffused beam effect.

The fan is housed in a durable, roto moulded hard shell and is powered by a beefy one-third horsepower motor that sports a useful instant "burst button".

Positioning the Reel EFX Wind Machine is really easy too, thanks to the integral versatile mounting yoke and floor stand.

<i>Motor</i>	Brushless AC
<i>Power</i>	220-240V 50-60MHz 2Amp
<i>Controls</i>	Adjustable speed and one touch blast
<i>Weight</i>	approx 11.3kg (25lb)
<i>Mounting</i>	Floor stand included
<i>Warranty</i>	12 months parts and labour

CE APPROVED
